An extremely difficult map to manage. This DLC gives you the Jungle map that has 4 crystals to look after. The downfall to this map is that its really hard and you got to be on your toes at all times, but the great thing about this map is that you can get alot of xp in a short amount of time. The detail in this map is awesome and really puts your character in the Jungle. There are no new monsters that come its just the new map that you can buy from this DLC. I have enjoyed playing on the map even though its really hard. Make sure to bring your friends along for the ride when you take on this map, because if you don't, you will loose really fast. Get it and don't regret it.. not worth it. One of the most difficult and challenging maps... Good luck :) 8/10.
Purchased it and the 6 player Karithika map isn't in my list. Kind of silly...
